Needs Assessment:

DIBELS 8th data demonstrates a need for the implementation of a strong Literacy Plan to improve intentional practices to meet the needs of our students by providing evidence-based reading instruction and intervention with strong monitoring and follow up. In 2023 – 2024 our students scoring below benchmark showed minimal improvement in First Grade and decline in Second and Third Grade.

2023 – 2024 DIBELS 8 th Assessment	Beginning of Year Percentage Below Benchmark	Middle of Year Percentage Below Benchmark	End of Year Percentage Below Benchmark	Growth from Beginning of Year to End of Year
Kindergarten	72%	51%	39%	33%
1 st Grade	50%	47%	28%	22%
2 nd Grade	43%	44%	34%	9%
3 rd Grade	42%	40%	34%	8%

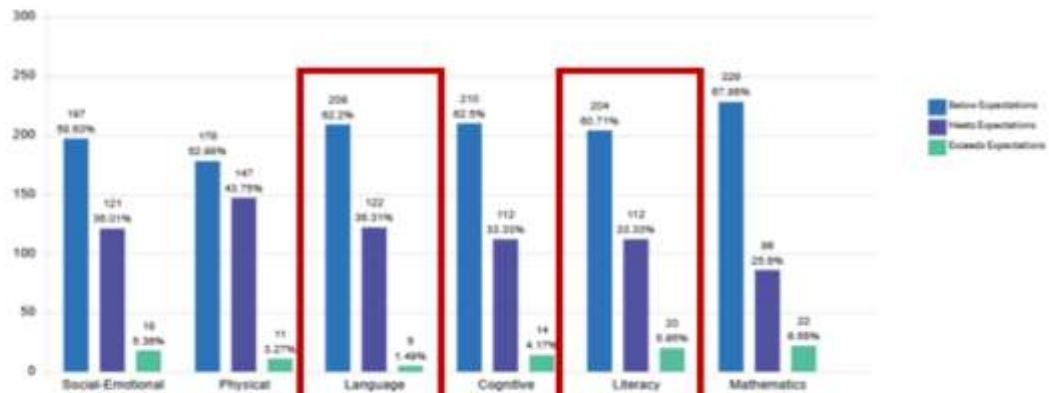

Teaching Strategies GOLD/SmartTeach data demonstrates the need for continued use of effective language and literacy practices to lower the percentage of children working below the widely held expectations by the spring checkpoint, therefore increasing the percentage of children meeting and exceeding them.

LANGUAGE				
	Fall	Winter	Spring	Growth
Below widely held expectations	62.2%	55.08%	50.19%	(12.01%)
Meets widely held expectations	36.31%	39.73%	43.58%	7.27%
Exceeds widely held expectations	1.49%	5.19%	6.23%	4.74%
LITERACY

--	--	---	--	--

Interventions will be based on these deficit areas below:

- **Phonological Awareness interventions:** include using materials/strategies in the LP intervention guide, 95%, Differentiated Instruction, and West Virginia. Micheal Heggerty lessons focusing on 1 of the 9 areas of concern (phoneme blending and segmenting, addition, substitution, and deletion of sounds, blending sounds, language awareness, isolating beginning, middle and final sounds, and rhyming.

| | | <ul style="list-style-type: none">• <u>Phonics interventions:</u> include using materials/ strategies focusing on word building using the intervention materials for phonics progression based on the student deficit. (Ex. Students use chaining lessons to build words using letters tiles, alphabet arcs, dry erase boards, and digital letter manipulation. Students practice deficit phonics skills using a variety of reading materials. (ex. Decodable text, sight words, and assisted reading with teacher/interventionist)• <u>Vocabulary interventions:</u> include | |

		<p>using Tier 1 curriculum, Wit & Wisdom, by exposing students to vocabulary with embedded read aloud activities. This helps expose students to a variety of vocabulary, language structures, and story elements. Morphology and vocabulary lessons within the Deep Dive sections of Wit & Wisdom also provide next steps for students who struggle with lessons. These next steps used as an intervention can be critical for student understanding. One example uses The Frayer Model activity to help students deepen</p>

understanding of vocabulary.

- **Fluency interventions:** include practicing letter sounds or letter combinations, sight words/ high frequency words with automaticity to strengthen word recognition. Students will then use various reading materials to strengthen automatic reading with guidance and support from the teacher/interventionist.

|--|--|---|--|--|
| | | <ul style="list-style-type: none">• <u>Comprehension interventions:</u> are based on student deficits correlating directly with phonics deficiencies. Using data from a phonic screener to target the deficit sounds and automaticity of reading, the teacher/ interventionist will use decodable Phonological awareness screener, sight words and assisted reading to strengthen reading comprehension. | | |
|--|--|---|--|--|

		<u>Extensions:</u> <ul style="list-style-type: none"> Teacher/Interventionist will provide extension lessons to students who are on or above grade level. These lessons can be based on grouping from iReady Reading Diagnostic and focus on grade level or above grade level standards.
